

HELP BUILD A BETTER FUTURE

# ***MENTOR A ROBOTICS TEAM***

Working with adult mentors, students on a *FIRST* Robotics Competition team have limited time to design, build, program, and test their robots before competitions in February and March.

## **AS A *FIRST* MENTOR:**

- Teach what you know
- Be inspired by students
- Give back to your community
- Build your own skills & resume

Support one of our California high school teams!

## ***TECHNICAL & NON-TECHNICAL***

Engineering, programming, project planning, fundraising, marketing, and many other skillsets needed to help students grow their expertise & confidence.

**Help build the  
next generation  
of innovators!**
