

HELP BUILD A BETTER FUTURE

# ***MENTOR A ROBOTICS TEAM***

High school students on *FIRST* Robotics Competition teams design, build, program, and test their robots - with the support of adult mentors - for thrilling competitions in March and April.

## **AS A *FIRST* MENTOR:**

- Teach what you know
- Be inspired by students
- Give back to your community
- Build your own skills & resume

Support one of our California high school teams!

## ***TECHNICAL & NON-TECHNICAL***

Software, programming, mechanical, electrical, AI, marketing, business, and project management (+ many more) skillsets needed to help students grow their expertise & confidence.

**Help build the  
next generation  
of innovators!**
